Introduction

The *Bilingual Dictionary for ESL Beginners* has been developed for use by students in the early stages of learning English as a second language.

The list of words contained in this dictionary includes the most common words that students use in everyday communication and in the classroom. This list provides a scaffold for further language acquisition.

The *Bilingual Dictionary for ESL Beginners* takes into consideration the Australian culture and way of life including frequently encountered colloquial words and phrases. It is expected that students will use this publication as a reference point for the first 12 to 18 months of English language acquisition.

A companion volume titled *Thematic Picture Dictionary for ESL Beginners* may be used in conjunction with this volume. It contains over 400 illustrated words, all of which can be found with their translations in this volume.

The two dictionaries are designed for individual student use at school and at home to support English language acquisition.

The skills of many ESL teachers were utilised in the choice of lexicon for this dictionary. Their enthusiastic participation has helped to produce a valuable teaching and learning resource suited to the needs of beginner ESL students.

How to use this dictionary

Notes for the teacher

The information in this dictionary is presented simply showing part of speech, headword in bold, definition if required and phrases for words which need to be read in context for clarity of meaning. You will find explanations regarding the organisation of the dictionary below.

Page Header

The page header is found at the top left of each page in bold for easy identification of the page contents. It shows the first and last English entry on the page.

Example from page 1:

a - afterwards indicates that the first entry on this page is **a** and the last entry is **afterwards**.

The Headword

The headword is the word being defined in an entry. It appears in large bold type and is alphabetically ordered. Definitions of the headword appear under the headword (if applicable) and are numbered. Phrases, colloquial phrases, phrasal verbs and interjections containing the headword are translated in full and appear under the definitions.

Example from page 4:

		Headword	Translation
part of speech		back	
n	Definition	1. body part	only the word <i>back</i> is translated as a noun with the meaning <i>body part</i>
adv	Definition	2. opposite front	only the word <i>back</i> is translated as an adverb with the meaning <i>opposite front</i>
phrase		3. give it back	the phrase <i>give it back</i> is translated in full

Example from page 31:

		Headword	Translation
part of speech		help	
n	Definition	1. aid	only the word <i>help</i> is translated as a noun with the meaning <i>aid</i>
phrase		2. help yourself (serve yourself)	the phrase <i>help yourself</i> is translated in full with the meaning <i>serve yourself</i>
colloq phr		3. I can't help it (I have no control over it)	the colloquial phrase <i>I can't help it</i> is translated in full with the meaning <i>I have no control over it</i>

Where there is more than one meaning for an item of lexicon but only one is in common usage the meaning for translation has been included next to the headword in brackets.

Example from page 2:

	Headword	Translation
n	angle (mathematical usage)	only the word <i>angle</i> is translated as a noun with the meaning <i>mathematical usage</i>

Abbreviations

Words commonly found in the lexicon as abbreviations appear in the dictionary as abbrev and are not translated. They indicate the full spelling of the word where the translation may be found.

Example from page 4:

	Headword	Translation
abbrev	barbie *see barbecue	no translation - translation is found at the entry <i>barbecue</i>

Common present and past tense verb forms

Commonly used irregular present and past tense verb forms have been included in the body of the dictionary as they may not be recognised by the student as a derivative of the base form. These are not translated however and indicate the base form where the translation may be found.

Examples from page 2:

	Headword	Translation
prt v	am *see be	no translation - translation is found at the entry <i>be</i>
prt v	are *see be	no translation - translation is found at the entry <i>be</i>

Appendices

Six appendices have been included and may be found at the end of the word list. These are:

1. numerals and ordinals
2. common countries/states and their adjectival forms
3. common irregular verbs showing the base form, past tense and past participle forms
4. times in analog and 24 hour format
5. days of the week/months of the year/units of time
6. weights and measures.

These appendices have not been translated.

Parts of speech

Parts of speech are abbreviated and found in the left hand column of the English text in the dictionary. Other descriptors such as colloquialism are also abbreviated. A full list of abbreviations used is shown below.

Abbreviations used in this dictionary

Abbreviation	Meaning
